Events Management

CREATING EXPERIENCES. ELEVATING BRANDS.

HD Hintermann & Diaz designs and delivers brand experiences that transform every event into a meaningful connection between brands and people.

From creative concept and design to production, logistics, set-up and installation, we manage every stage through a fully integrated workflow and a global network of trusted partners, ensuring flawless execution anywhere in the world.

Our in-house Design team works alongside clients to develop tailor-made concepts that bring each brand's identity to life. Dedicated Project Managers oversee every detail, coordinating every phase with precision, efficiency and complete reliability.

Whether it's an outdoor activation, an in-store experience, a pop-up store, a corporate convention or a flagship opening, we create environments that engage audiences, strengthen brand perception and deliver lasting impact.

YOUR VISION. OUR EXPERTISE.
ONE EXPERIENCE. LASTING IMPACT.

OUR VISION

We believe that the future of marketing lies in the power of physical experiences. As digital touchpoints continue to dominate, physical in-store marketing will remain a cornerstone of brand strategy, offering consumers immersive, sensory-rich interactions that foster deeper emotional connections.

Our vision is to shape the future of retail by designing innovative, personalized displays that capture attention, build lasting relationships, and help brands create memorable in-store experiences for their customers.

OUR MISSION

At HD Hintermann & Diaz, our mission is to deliver highly creative, innovative, and efficient solutions that enhance brand visibility and elevate retail experiences. By managing the entire product cycle—from design and prototyping to production and distribution—we ensure seamless execution and outstanding quality. Committed to sustainability, craftsmanship, and cutting-edge technology, we strive to provide our clients with tailor-made displays and packagings that not only meet their needs but also inspire and engage their audiences.

VALUE CHAIN

CREATIVE STUDIO

We transform ideas into meaningful brand experiences. Through strategic thinking, creativity and market insight, we develop concepts that strengthen brand identity and engage consumers across every touchpoint.

PRODUCT DEVELOPMENT

From concept to engineering, we turn creative ideas into feasible, efficient and production-ready solutions. Every detail is designed to balance aesthetics, functionality, sustainability and cost optimization.

GRAPHIC SERVICES

Our graphic team ensures every project communicates with consistency and impact. Artwork adaptation, pre-press optimization and technical file preparation guarantee flawless execution across all production processes.

MANUFACTURING & PRODUCTION

Combining in-house manufacturing capabilities with a global network of qualified production partners, we deliver premium solutions with complete production control, continuous quality assurance and maximum operational efficiency.

LOGISTIC & DISTRIBUTION

We manage worldwide logistics with precision and flexibility. From warehousing to international distribution, we ensure every project reaches its destination on time, ready for implementation.

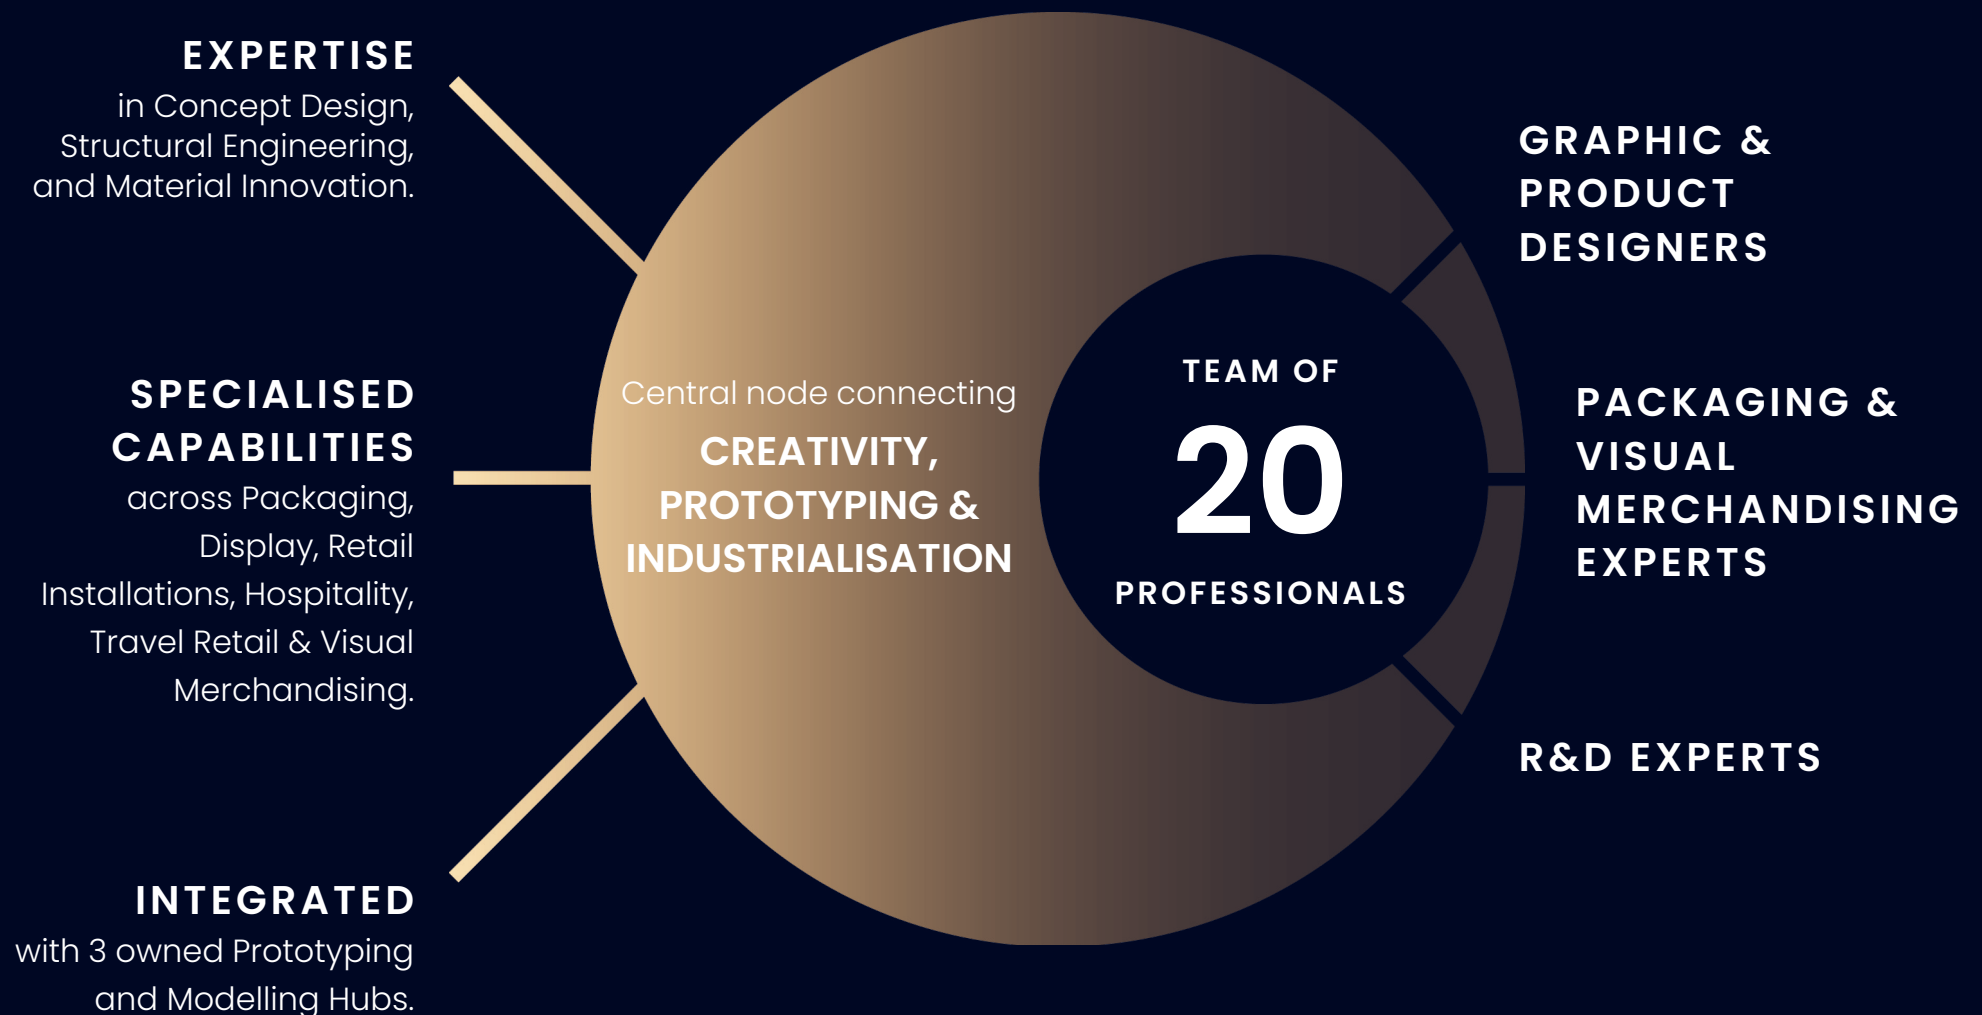

CUSTOMER CARE

Every project is coordinated by dedicated specialists who oversee planning, suppliers, production and delivery. A single point of contact guarantees transparency, efficiency and seamless execution from start to finish.

A DEDICATED TEAM FOR PRODUCT EXCELLENCE AND COST EFFICIENCY

360° DESIGN & TECHNICAL SUPPORT

A BUSINESS MODEL BASED ON SUSTAINABILITY

DESIGN & INNOVATION

- Dedicated team for design, technical development and prototyping
- In-house expertise on paper, premium packaging and retail display solutions

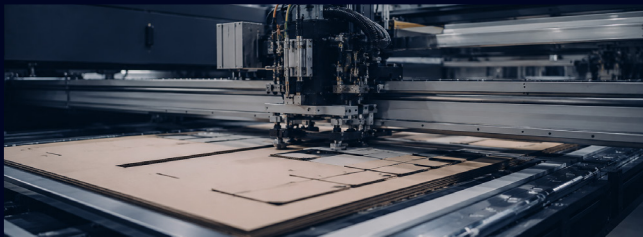

PROJECT MANAGEMENT

- Dedicated project manager for each client and project
- Cross-functional coordination between design, engineering, production and logistics
- Tailored project planning with timing, cost and quality

SUSTAINABILITY INTEGRATION

- Development of recyclable, mono-material and FSC-oriented solutions
- Material optimization to reduce waste and improve production efficiency
- Sustainable approach integrated from design to final delivery

IN-HOUSE PRODUCTION

- **50+ industrial production machines** dedicated to premium packaging, retail displays and POS solutions
- Integrated wood, metal, acrylic, painting and digital printing departments supporting complete manufacturing processes
- Advanced converting, prototyping and finishing technologies ensuring premium quality and production efficiency

GLOBAL MANUFACTURING SUPPLY CHAIN

- International network of selected manufacturing partners
- Production management across paper, metal, wood, plastic and mixed-material solutions
- Supplier coordination focused on quality, timing and competitiveness

GLOBAL LOGISTIC & DISTRIBUTION

- Global logistics coordination from factory to final destination
- Inventory management and distribution planning for multi-market projects
- Expertise in packaging, transport optimization and retail delivery requirements

WORLDWIDE NETWORK OF MANUFACTURING PARTNERS

GLOBAL LOGISTICS NETWORK OPTIMISES INVENTORY MANAGEMENT ACROSS ALL REGIONS

CORPORATE SOCIAL RESPONSIBILITY (CSR)

Our commitment to sustainability goes beyond products. We integrate ethical business practices, environmental responsibility and social values into every stage of our operations and supply chain.

Ethical and responsible business practices
